DOG PORTRAITURE

GUIDE

DOG IS ART

DOG PORTRAITS, FRAMED

Dog portraiture doesn't have to be corny and colourful to be playful, nor stiff or pretentious to be meaningful. Pawtiqe helps dog parents celebrate their life companion through elegant, bespoke artworks that align with their aesthetic and seamlessly integrate with their home decor. Just like any commissioned artwork, we aim to transform our clients' space while showcasing their dog as art, without the clichés and unnecessary ostentation.
